

IONIAN ISLANDS

i-ō-nē-ən i-lānds

LOCATION — Seven Islands, of which six-Corfu, Paxos, Lefkas (Santa Maura), Cephalonia, Ithaca and Zante-are in the Ionian Sea west of Greece, and a seventh-Cerigo (Kithyra)-is in the Mediterranean south of Greece

GOVT. — Integral part of Kingdom of Greece

AREA — 752 sq. miles

POP. — 231,510 (1938)

These islands were acquired by Great Britain in 1815 but in 1864 were ceded to Greece on request of the inhabitants.

In 1941 the islands were occupied by Italian forces. The Italians withdrew in 1943 and German forces continued the occupation, using current Greek stamps without overprinting, except for Zante.

For stamps of the Italian occupation of Corfu, see Corfu.

ISSUED UNDER ITALIAN OCCUPATION

Values of stamps overprinted by letterpress in pairs are for unsevered pairs. Single stamps, unused, sell for one third the price of a pair; used, one half the price of a pair.

Handstamped overprints were also applied to pairs, with "isola" instead of "isole."

A variety with wrong font "C" in "Cephalonia" is found in several positions in each sheet of all denominations except those overprinted on single stamps. It sells for about three times the price of a normal pair.

Several other minor spelling errors in the overprint occur on several denominations in one of the printings.

Forgeries exist of many of the higher valued stamps and minor varieties of Nos. N1-N17, NC1-NC11 and NRA1-NRA5.

Catalogue values for unused stamps in this country are for Never Hinged items, beginning with Scott 1054 in the regular postage section, Scott B36 in the semi-postal section, Scott C83 in the airport section, Scott O72 in the officials section, Scott Q36 in the parcel post section, and Scott RA4 in the postal tax section.

Values of early stamps vary according to condition. Quotations for Nos. 1-20, 33-40 are for fine copies. Very fine to superb specimens sell at much higher prices, and inferior or poor copies sell at reduced prices, depending on the condition of the individual specimen.
 Cracked gum on unused stamps does not detract from the value.

Beware of forgeries and/or reprints of most Iran stamps between the years 1870-1925. Scott values are for genuine stamps. Collectors should be aware that forgeries of many issues outnumber genuine examples by factors of 10 or 20 to one. Failing specialized knowledge on the part of the collector, these stamps should be examined or authenticated by acknowledged experts before purchase.

Four varieties of each.
 Nos. 11-14 were printed in horizontal strips of 4 with 3-10mm spacing between stamps. The strips were then cut very close all around (generally touching or cutting the outer frame-lines). Then they were hand-rouletted between the stamps. Values are for stamps with rouletting on both sides and margins clear at top and bottom. Stamps showing the rouletting on only one side sell for considerably less.

Nos. 11 to 14 also exist pin-perforated and perçé en scie.
 No. 13b has spacing of 2-3mm.

Nos. 15-16, 18-20 were printed in blocks of 4, with spacing of 2mm or less. No. 15 also in vertical strip of 4. No. 17 in a vertical strip of 4.
 The 2s black and the vertical-strip printing on the 1s are on medium to thick grayish wove paper. Both printings of the 1s are found in black as well as gray black. Forgeries exist.

Official reprints of the 1s and 4s are on thick coarse white paper without gum.

Unofficial Reprints:

1875 and 1876 issues.

The reprints of the 1s and 1k stamps are readily told; the pearls of the circle are heavier, the borders of the circles containing the Persian numeral of value are wider and the figure "1" below the lion is always Roman.

The reprints of the 2s have the outer line of the frame at the left and at the bottom broken and on some specimens entirely missing.

A distinguishing mark by which to tell the 4s and 4k stamps is the frame, the outer line of which is of the same thickness as the inner line, while on the originals the inner line is very thin and the outer line thick; another feature of most of the reprints is a gash in the lower part of the circle below the figure "4."

In the reprints of the 8s stamps the small scroll nearest to the circles with Persian numerals at the bottom of the stamp touches the frame below it; the inner and outer lines of the frame are of equal thickness, while in the originals the outer line is much heavier than the inner one.

All reprints are found canceled to order.

The 10s was bisected and surcharged "5 Shahi" or "5 Shاهی" for local use in Azerbaijan province and Khoy in 1877.

"Imperf" of the 5s are envelope cutouts.

Forgeries and official reprints exist.

TWO TYPES:

Type I - "CHAH" or "KRANS" are in capital letters.

Type II - Only "C" of "Chah" or "K" of "Krans" is a capital.

The 3c and 5c sometimes have a tall narrow figure in the upper left corner. The 5c is also found with the cross at the upper left broken or missing. These varieties are known with many of the overprints.

Stamps of Design A25 have a faint fancy background in the color of the stamp. All

issued stamps have handstamped controls as listed.

The "Officiel" overprint does not signify that the stamps were intended for use on official correspondence but that they were issued by authority. It was applied to the stocks in Tabriz and all post offices in the Tabriz region after a large quantity of stamps had been stolen during the Russian occupation of Tabriz.

The "Officiel" overprint has been counterfeited.

Stamps were sold at a 10% discount to stagecoach station keepers on the Tehran-Recht route. To prevent speculation, these stamps were overprinted "Stagecoach Stations" in French and Farsi.

Forgeries exist, usually overprinted on reprints of the 1909 issue and used copies of the 1911 issue. Values are for authenticated copies.

In 1912 this overprint, reading "Sultan Mohammed Ali Shah Kajar," was hand-stamped on outgoing mail in the Persian Kurdistan region occupied by the forces of the former Shah Mohammed Ali. It was applied after the stamps were on cover and is found on 8 of the Shah Ahmed stamps of 1911 (1c, 2c, 3c, 6c, 9c, 13c, 1k and 26c). Some specialists add the 10c. Forgeries are abundant.
